OBJECTIVE

Enthusiastic Computer Science student with experience in developing web applications and working on real-world projects. Proficient in Java, JavaScript, React, SQL, and database management. Looking for opportunities to apply my skills, learn continuously, and contribute to a team.

EDUCATION

B.E. Computer Science and Engineering 8.03 Kongu Engineering College, Erode 2028	CGPA: 2024-
HSC – Higher Secondary 2022 Sri Venkateswara International Senior Secondary School 76.4%	2021-

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL
Web Technologies: HTML, CSS , Java Script, React
Databases: MySQL
Tools: Git, GitHub, VS Code

EXPERIENCE

CopterCode, IIT Madras - Intern 2026	Hybrid Jan 2026 - Feb
• Worked as a Frontend Developer Intern in a hybrid environment, contributing to the Karvensen and Veldursen projects. • Developed responsive user interfaces using React.js and integrated content with Sanity CMS. • Collaborated with team members using Git/GitHub and gained experience with real-world development workflows. • Built and deployed 5+ MERN stack projects, integrated REST APIs, and enhanced debugging and teamwork skills.	

PROJECTS

Hospital Management System Vercel	React, PostgreSQL, Railway,
• Developed a full-stack hospital management system with modules for patients, doctors, appointments, and billing using React.js and PostgreSQL. • Built responsive user interfaces and deployed the application on Railway and Vercel	
Karvensen CMS	React.js, Sanity
• Developed responsive and reusable frontend components using React.js. • Integrated Sanity CMS for dynamic content management and collaborated with the team using Git/GitHub.	
Veldursen CMS	React.js, Sanity
• Developed responsive and reusable frontend components using React.js to create a user-friendly interface. • Integrated Sanity CMS for dynamic content management and collaborated with the development team using Git/GitHub.	
Silent Zone Surveillance System Hardware	Arduino, RF Sensors,
• Developed an Arduino-based system to detect mobile phone usage in restricted areas using RF sensors. • Integrated hardware components for real-time detection and tested the system for reliable performance.	

ACHIEVEMENTS & CERTIFICATIONS

• Human Computer Interaction (NPTEL) Elite	Score: 94% Grade:
